#### This quiz competition focused on:

Climate change and other environmental degradations have broken our natural systems, leading to new and fatal diseases as well as a breakdown of the global economy. But just as climate change and coronavirus painfully remind us of the harm we've caused, Restore Our Earth reminds us of the opportunities that lay ahead.

We must Restore Our Earth not just because we care about the natural world, but because we live on it. Every one of us needs a healthy Earth to support our jobs, livelihoods, health & survival, and happiness. A healthy planet is not an option — it is a necessity.

Eco club members are actively participating in this competition. The top three scorers are rewarded.
