REELS MAKING CONTEST

About Eco Club:

Eco club play an important role in creating environmental awareness among the future young generation. It is a platform on which the knowledge about our environment. To create clean and green alertness to among students through various innovative methods. We offer programs and activities to encourage others to reduce pollution, plant more trees and also to promote sound environmental behaviour.

Event IV: Reels Making Contest

Title : Smart Energy Smart Future

Date: 20-02-2026

Time: 12.30 pm to 3.00 pm

Sustainable Development Goals: 7. Affordable and Clean Energy

This Reels Making contest focused on:

The Eco club and Institution Innovation Council (IIC) of RMDEC organized a, Reels Making Contest in the title of Smart Energy Smart Future on 20th February 2026.

The event aimed to promote awareness about efficient energy usage and sustainable environmental practices through creative digital media. Students actively participated by creating short reels highlighting topics such as renewable energy sources, energy-efficient technologies, reduction of electricity wastage, and eco-friendly lifestyle practices. The activity encouraged students to present innovative ideas using visual storytelling and modern editing tools. Through this event, participants understood the significance of conserving energy for future generations and learned how smart energy practices can reduce environmental impact and support sustainable development. The competition also enhanced students' creativity, digital skills, and environmental responsibility.
