5 years

3 years

2.5 years

etewrtew

One and half years as Adobe Experience Developer in Cognizant.

Working in TCS for the past 1.5 years. Working as a Salesforce developer for the client named Thomson Reuters.

As I was part of flex company past 1.2 months and I was learning vast in supply chain management procurement difficulties and keep learning to achieve big success in my carrer

1 year

1.3 years

1.7

Having an experience of 1 year and 5 months in TCS.

I have one year of experience in an IT service company in RPA domain.

java backend developer

Still on bench

I am currently working in tcs and my role is assistant system engineer.  
in our project I am doing level 2 activities.

Excellent

Worked as a big data developer in TCS for 2.5 years and working as a Big data developer in cognizant for 7 months.

Very good environment, best place to start as a fresher, provides lot of platform for learning.

2 yrs

Worked in Tat elxsi for 2 years and currently in hashedin by deloitte for 1.5 years as software engineer. Overall 3.5 yrs of experience as software engineer.

Boson labs - 6months

Acronotics - 6months

I have 1 year of experience (Remote) as a Junior Business Analyst in the Property Advisor & Architecture group which is located in Belgium. Analyzing and Identifying areas for improvement in the Company's present business processes. Presenting concepts and findings during meetings. Working directly with partners, clients, technicians, and senior management.

Knowledge on creating visual reports, dashboards using Excel, Power BI desktop.  
Knowledge on DAX queries for creating new column or new measure for business needs.  
Publishing the reports developed to Stakeholders.

5yrs

I have one experience as a Remote support engineer with a demonstrated history of working in the information technology and services industry. Skilled in Technical Support, IT Infrastructure Management, Hardware Installation, Remote Desktop, and Active Directory.

I was very glad to work in Flex as a buyer in procurement process for the past 1 year.

It was really good

1 year 2 months at Thoughtworks

Software developer. Total exp - 6 years

iOS Developer

Till date same organisation

1 year 3 months - Temenos

6 months - Cognizant

6.5

I was working in Flex as Junior Engineer and then moved to Ford as PPM analyst for the past 5 years

4.5 years experience

Currently working in Accenture Ltd from July-2022.

Worked in Infosys Ltd from May-2019 to July-2022

4 years of software development

Having 4 years of experience in performance test engineering with specialization in performance engineering and JVM performance optimization. I have very good knowledge in banking and telecom domains. Completed multiple critical project launches with minimal performance bottlenecks in production.

2

3.9 months in BNY Mellon Technology

3.2 months in Sella India Pvt Limited

1 year 6 months

1 year of experience as trainee in Flex Electronics

I was a member of the research and development team. In order to implement scripts to enhance continuous integration procedures, improvements to video encoding formulae using Python. Downtime was cut by 10% as a result of improved video encoding and decoding performance. I worked with the testing team to improve my knowledge of the Python-based Selenium tool.

Initially done training with basic skills of full stack developer. Currently working as sitecore developer and also learning front end skills.

IT Professional

Canara Bank is a 2nd largest public sector bank in India. Its a great pleasure to work here and I have completed 6years of working here.

SAP technical lead

2016-2023

6

It was guide good and learning many new skills and experience

I have joined as a Teacher in Infosys, we provide advanced software and Springboot training for freshers whom join from varies department of engineering.

Software developer

Testing

1.5 years

Algonomy - 1.5 years

Walmart - 1.3 years

Infosys - 3.6 years

Program analyst at cognizant technology solutions. HR at Netmeds.

I started my Career as Application developer in Bank of New York Mellon right after my graduation from RMD.

Then I switched to being Corporate trainer and handled technical trainings for multiple MNCs which includes Cognizant Technology Solutions, Athena Health Care, Kanini - US based software solutions, Wondersoft technologies etc.

After I gave birth, I discovered my passion revolving around child and hence cleared International Childbirth Educator Certification with 92% and started my own brand. Now i conduct sessions on topics related to Getting Pregnant, Pregnancy, Labor Management, New born and postpartum care !

Cisco Systems Inc, Deloitte, TransUnion, Accenture

2 years good experince

2.7years

Working in Ltimindtree as a mainframe developer.

6 + years in SAP

I am a Data Scientist with 3+ years of experience in data science and 2 years of experience in SQL database and .net coding.

I have worked with Technip for 9.5 years as Oil & Gas instrumentation engineer with varied experience in FEED, Detailed engineering projects and also as a project management consultant.

The Work experience is good. The projects were challenging.

I am working as a developer in a project that involves developing features and solving the business needs. Its a great opportunity for a graduate to land on and I'm learning new things everyday and I think this opportunity paved a way for my career.

I had 3 months internship experience in core JAVA and then I had internship in Adobe Experience Manager and currently working in a project based on that CMS Tool

Done internship in CTS in Artificial intelligence and Analytics, worked as R&D developer at Temenos and worked on their core product T24. Currently working on Python and a couple of ML projects in the IT sector of the company cholamandalam investment and finance.

1.2

Having 1 year 6 months experience in Hardware Design and Alternate analysis work

7

0

Business Analyst at Miramed Ajuba, Chennai

Assisting Business Analysts with data collection in Hospitals.

- Requirement Gathering from clients for senior Business Analysts.
- Documentation and managing the Change Requirement.
- Managed & Supported SAP Implementation Health Care Products for US healthcare Hospitals.
- Elicitation & Collaboration with Development team as per the requirement.
- Conducting Scrum meetings and validating the completed features.
- Testing the software and providing feedback to the client and technical team.
- Conducting weekly and daily calls with offshore stakeholders to improve product quality.
- Driving the team through Agile project management and ensuring smooth delivery.

IT Business Analyst at Contus IT Solutions , Chennai

- Managing and driving the cross-functional teams to deliver

IoT-based mobile & Web application projects.

- Create & maintain the functional and non-functional specification records including BPNM, Class, and Sequence modeling.
- Delivering big-scale projects of Smart Fleet management solutions for Daimler AG and JCB India.
- Involves in decision-making using data structures, and system interfaces in several IT landscapes.
- Liaison between various Business units and Technology Database and Infrastructure validation as per project requirement and query databases using SQL and associated tools.
- Experience in API design and EAI middleware software

Technical Business Analyst at Nexus Frontier Tech, City of London

- Leading the requirements gathering and definition workshops for functional and non-functional requirements.
- Employing various techniques to understand business requirements, including interviews, workshops, surveys, and storyboards.
- Identifying and evaluating options for improving business processes and product success in the market.
- Ensuring that various end-user perspectives are considered in the articulation of requirements.
- Collaborating with the Product Designer, System Engineers, Server Architect, and DevOps engineer to ensure that the User Stories meet the objective and that the implementation is user-centric.
- Elicitation, catalog, and prioritizing business requirements with full traceability back to the business process.
- Translating business requirements into technical solutions.

Data Business Analyst at DMG Events, City of London

Responsible for Documentation and Business Process Modeling about the existing systems across all the locations.

- Worked on Centralized Data Platform which connects all the business divisions across 28 geographical locations.
- Closely worked with AWS lead in designing the data platform architecture.
- Responsible for standardizing the global taxonomies across the entire organization.
- Worked on existing MYSQL DB to identify the existing GAP and Areas of Improvement.
- Worked along with PM to streamline the current business operations across the data team and implemented the standardized business process.

4.5 years

Technical Lead for banking project

4+ years of Product management experience building B2B and B2C products

I joined as a manual Tester and now I become Selenium automation developer with 6 years of experience and well known skill set of Testcase preparation, selenium with Java, Scrum, Agile projects and Jenkins

It's very good i worked as Instrumentation Engineer SRF Ltd and i switched to IT in software Testing.

Earlier it is little bit hard to adopt to the working experience, but after that i have learnt a lot.

Great

Have worked on ERPNEXT and Django projects

3 years 4 months

A lot of learning and implementation. A overall experience is too good.

Working as data engineer in BA Continuum India Pvt Ltd from April 01 2022 till date. Worked as Technology Analyst in Infosys Ltd from Dec 2016 - Mar 31 2022

Good

6 years in Industrial Automation engineer

4 Years

I started as Trainee and got promoted as an Systems Engineer. Learnt about lot of new technologies including Azure Active Directory and related technologies. It is a great place to work with friendly work culture. Explored a lot. My communication skill got improved as it is important there.

Working as developer for 3 years.

## 1. SKILLS AND KNOWLEDGE

### a. Professional core subjects

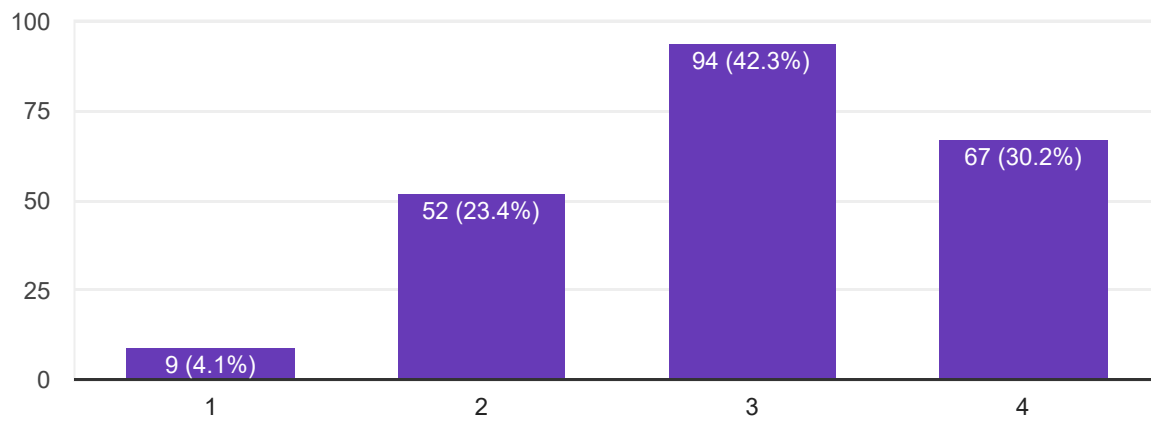

222 responses

### b. General Science and Engineering Mathematics

 Copy

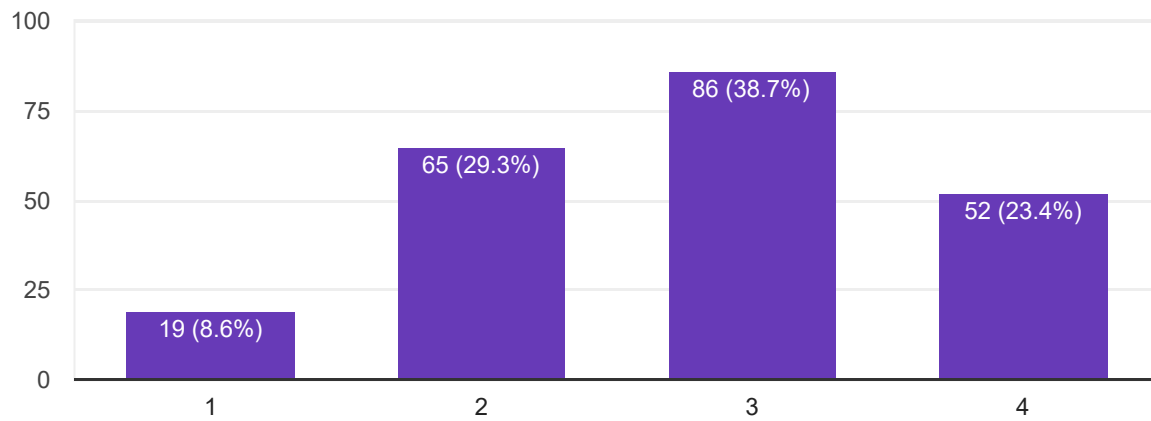

222 responses

### c. Elective Subjects

 Copy

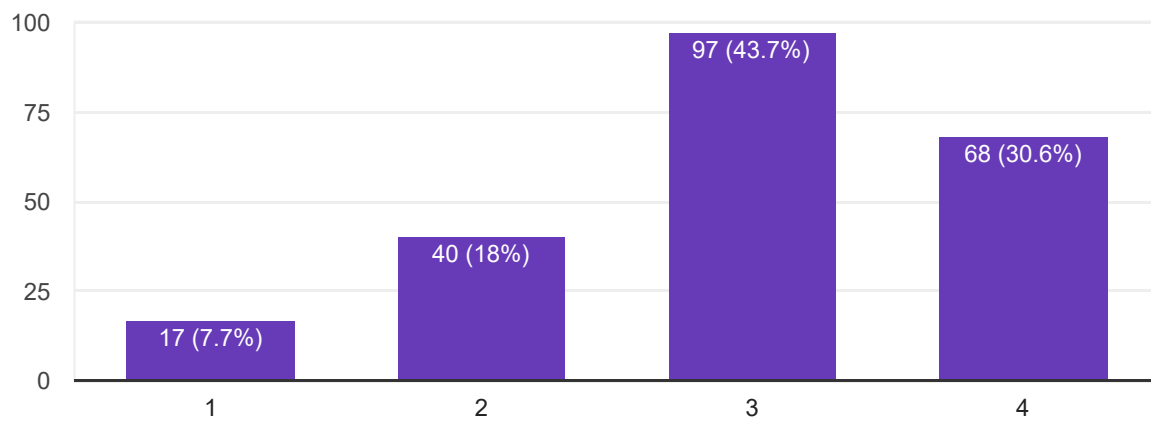

222 responses

### d. Practical experience

 Copy

222 responses

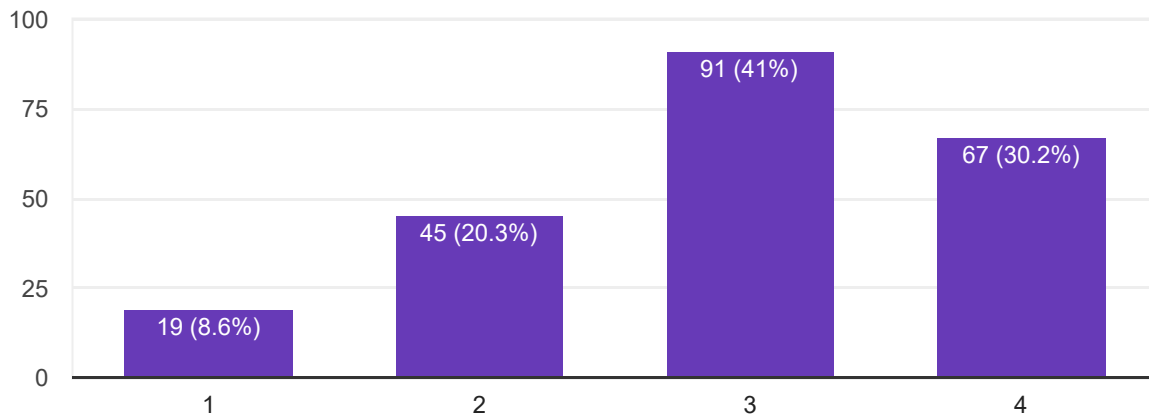

### e. Project / Mini project

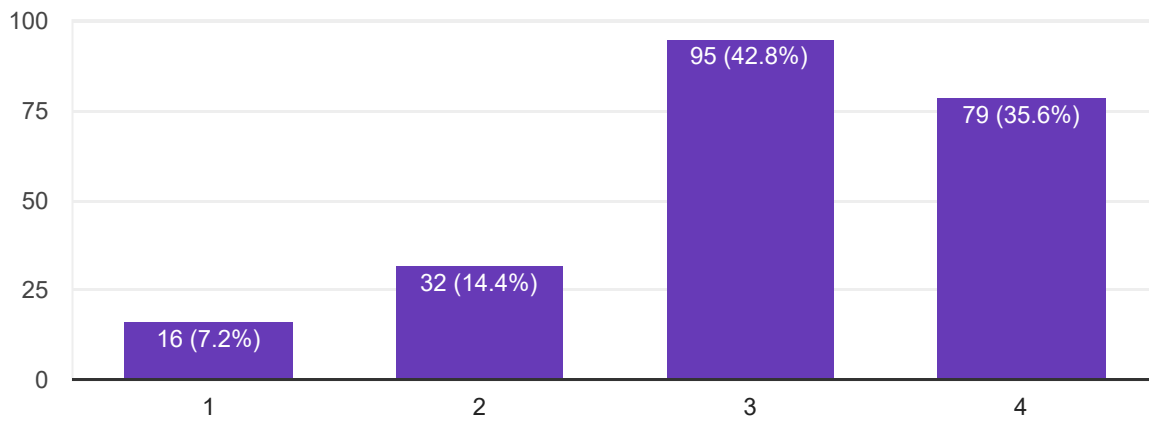

222 responses

### f. Centre of Excellence / Training

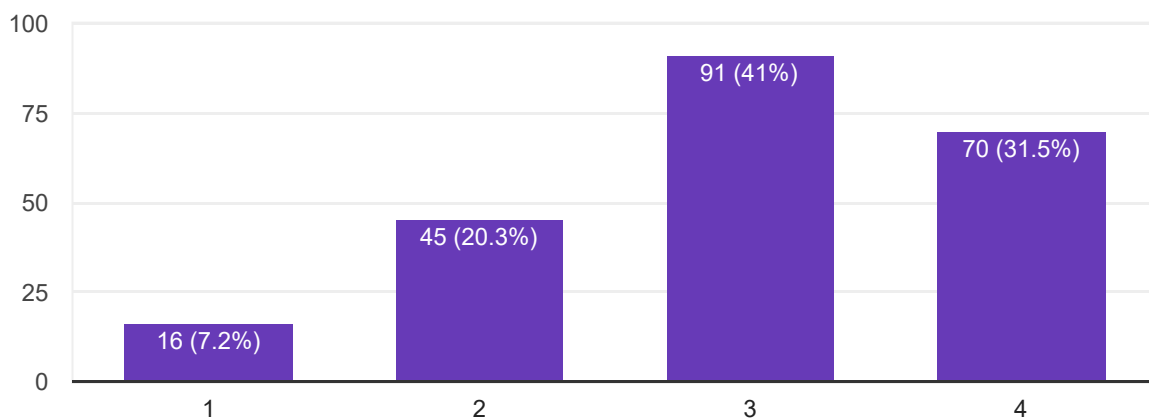

222 responses

### g. Co-curricular activities

222 responses

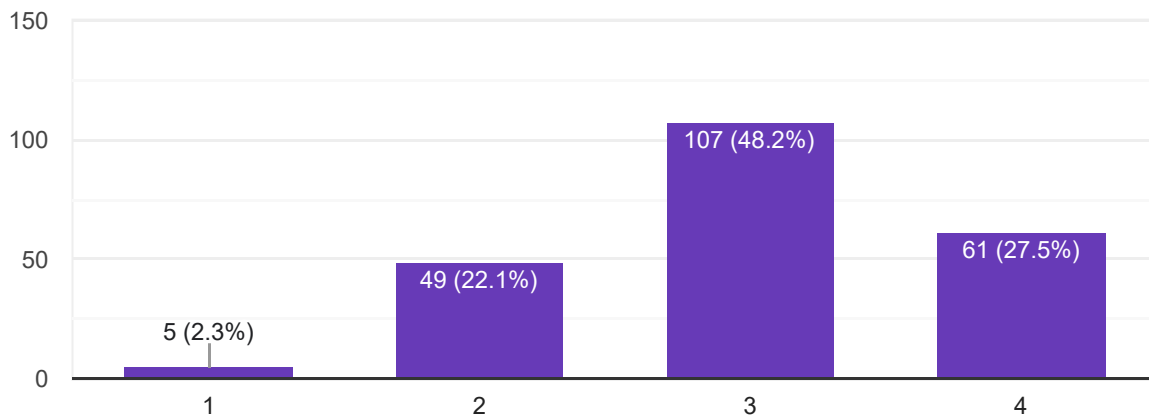

## 2. PROGRAM OUTCOMES

1. Engineering knowledge: Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.

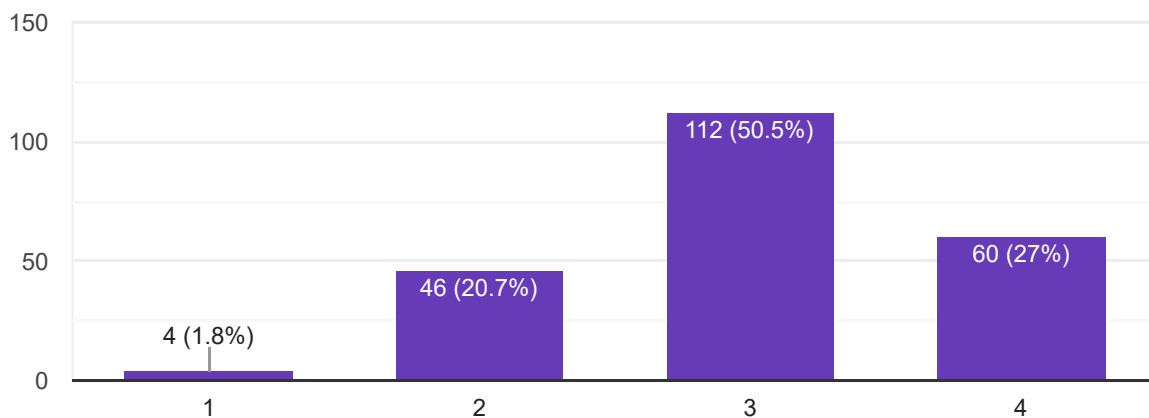

222 responses

2. Problem analysis: Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences

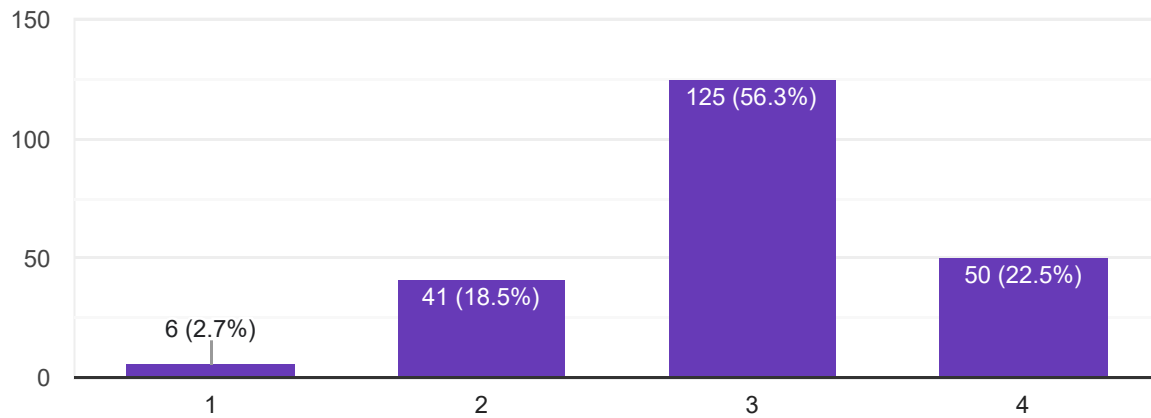

222 responses

3. Design/development of solutions: Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations

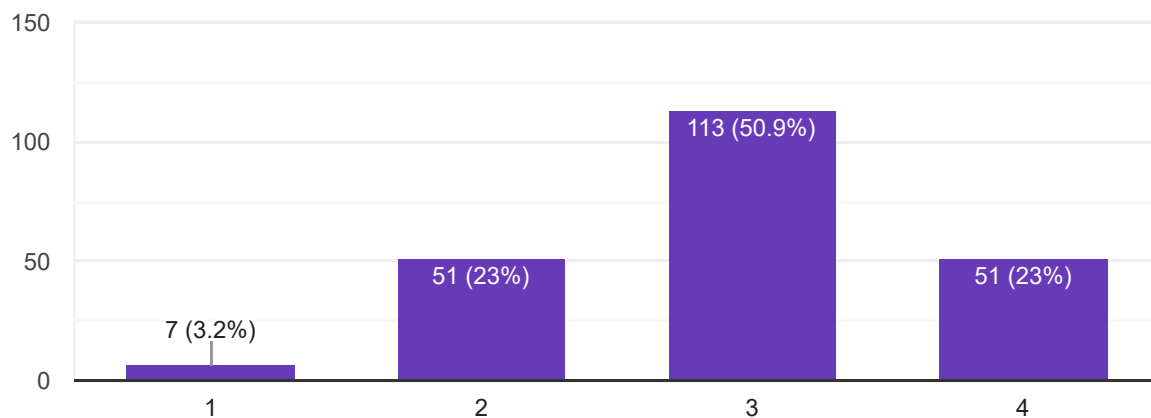

222 responses

4. Conduct investigations of complex problems: Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions

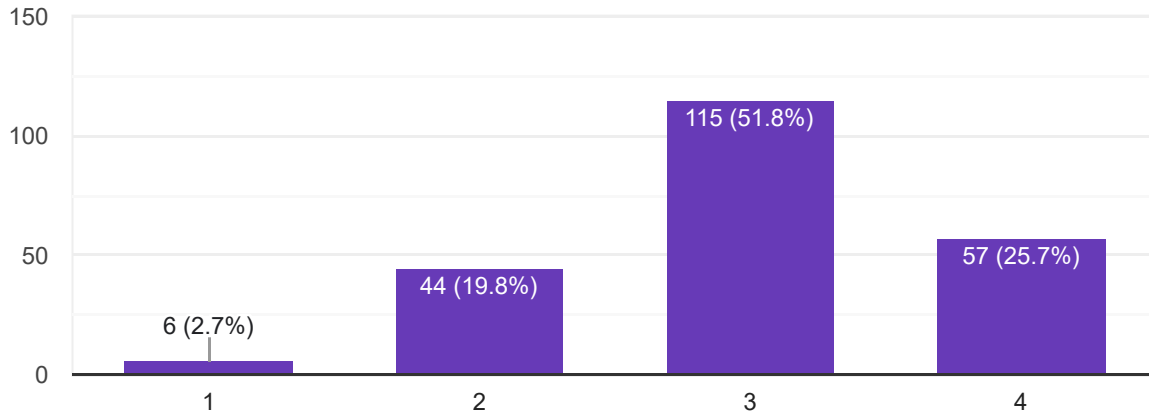

222 responses

5. Modern tool usage: Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations

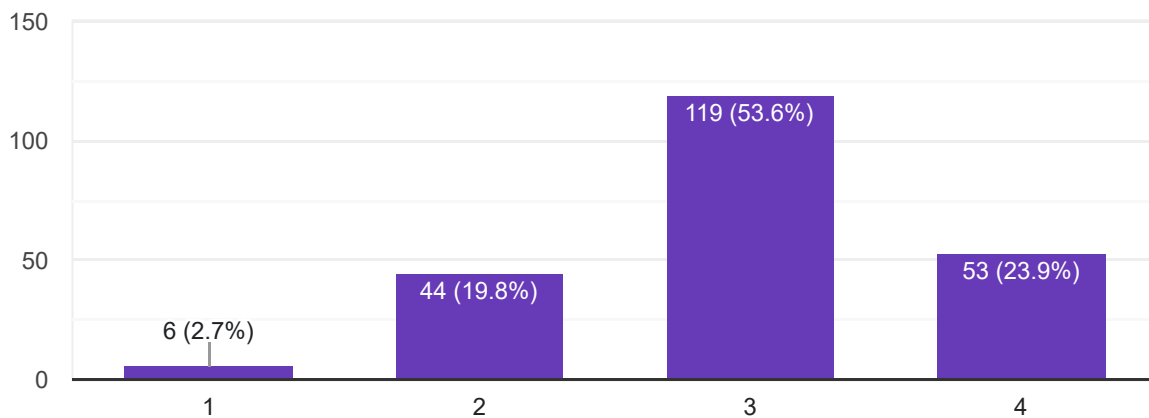

222 responses

6. The engineer and society: Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.

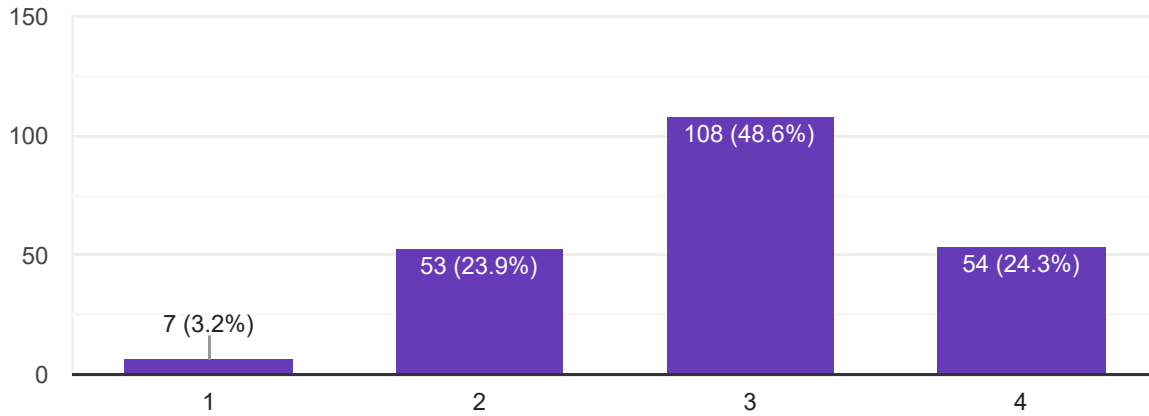

222 responses

7. Environment and sustainability: Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.

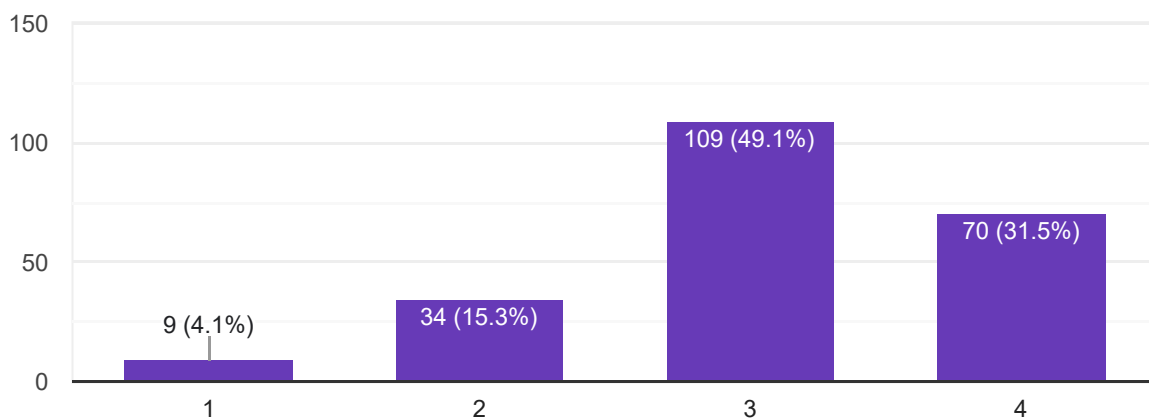

222 responses

8. Ethics: Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.

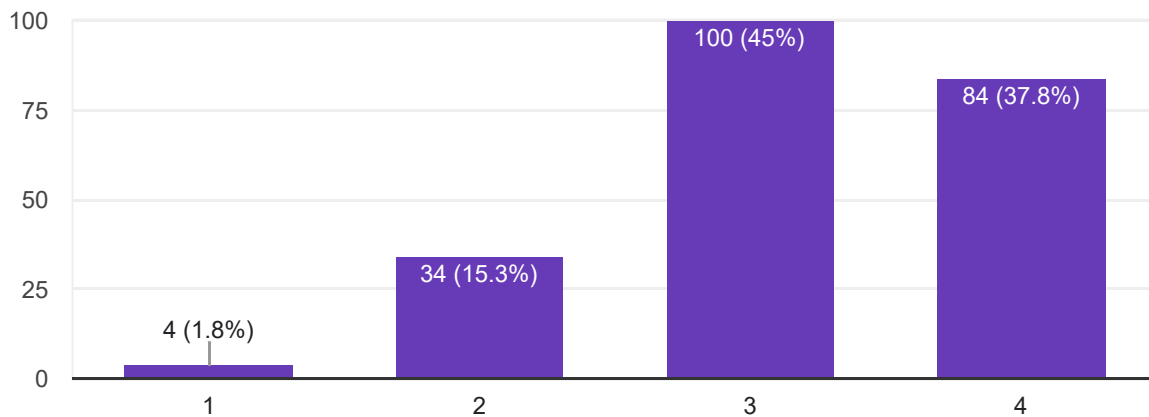

222 responses

9. Individual and team work: Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.

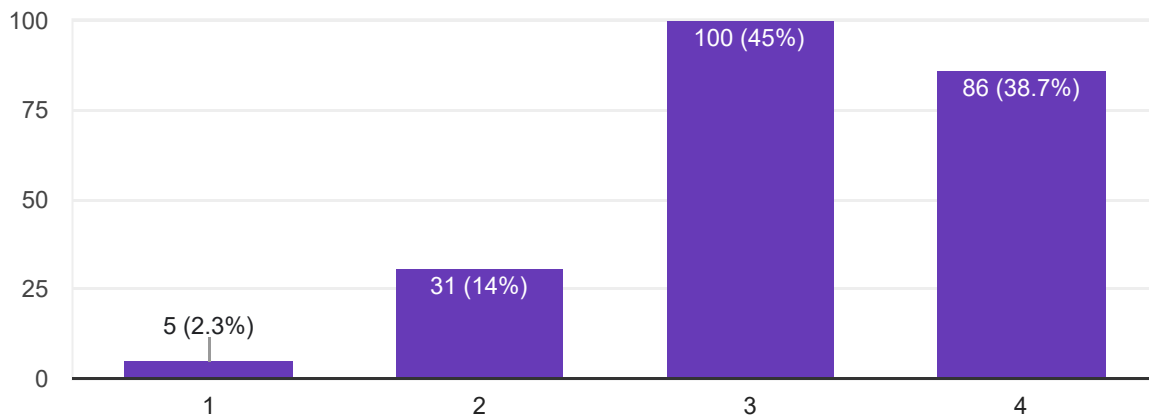

222 responses

10. Communication: Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.

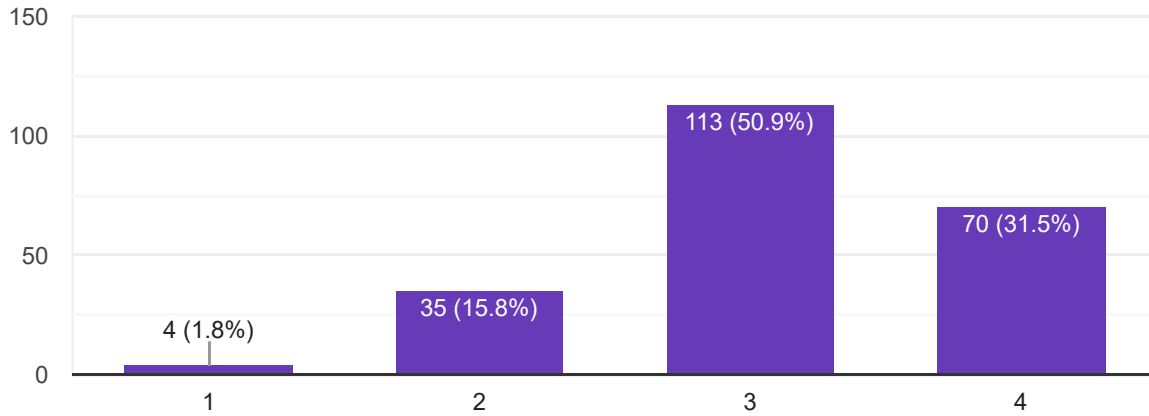

222 responses

11. Project management and finance: Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.

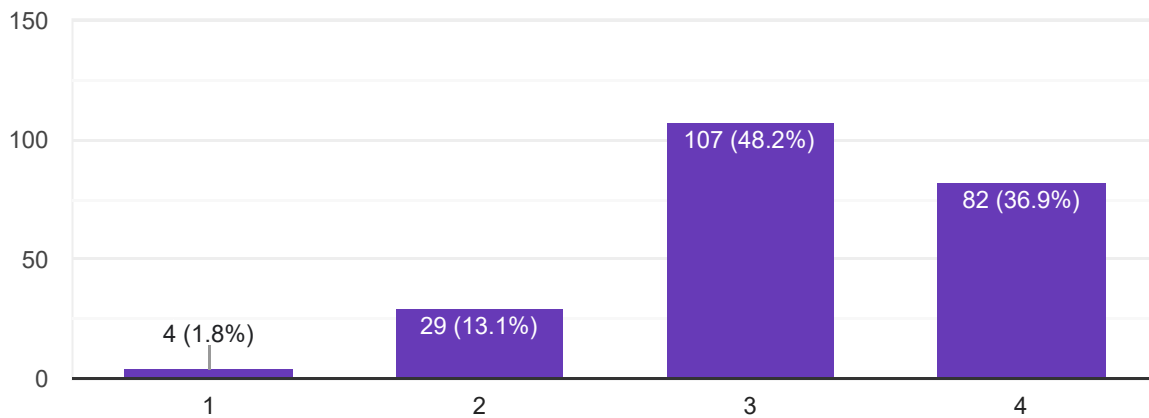

222 responses

12. Life-long learning: Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

222 responses

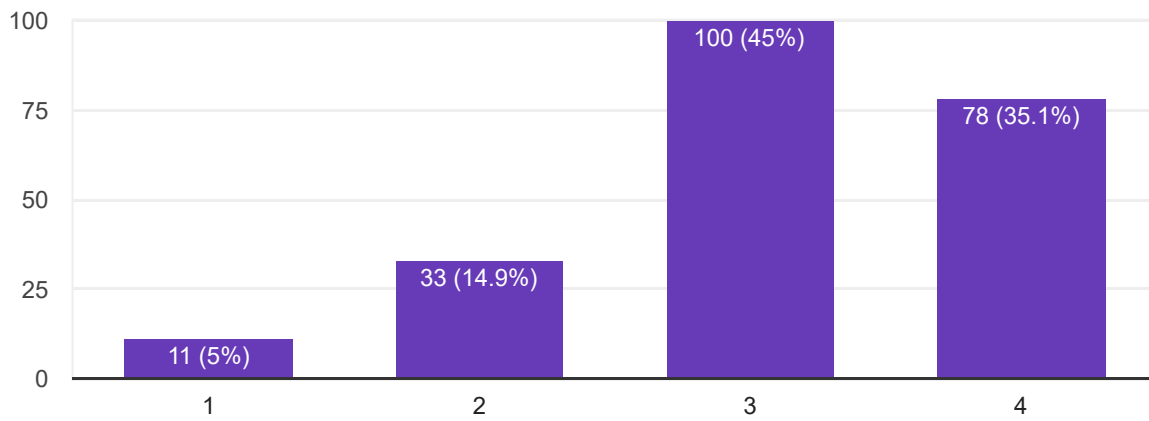

### 3. PROGRAM SPECIFIC OUTCOMES

Apply computer science principles such as data structures, algorithmic techniques and software engineering methods to specify, design and develop software artifacts for solving real world problems.

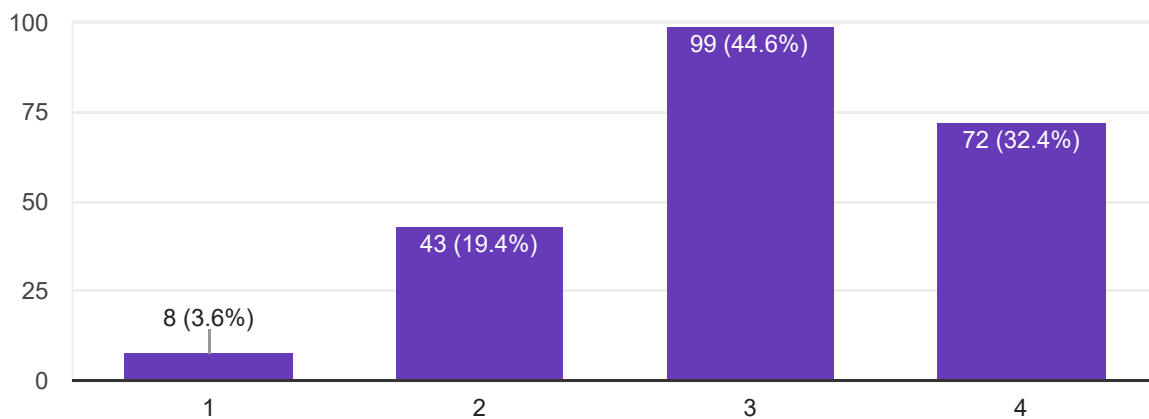

222 responses

Test and evaluate software to systems/components to meet the requirements of end users.

222 responses

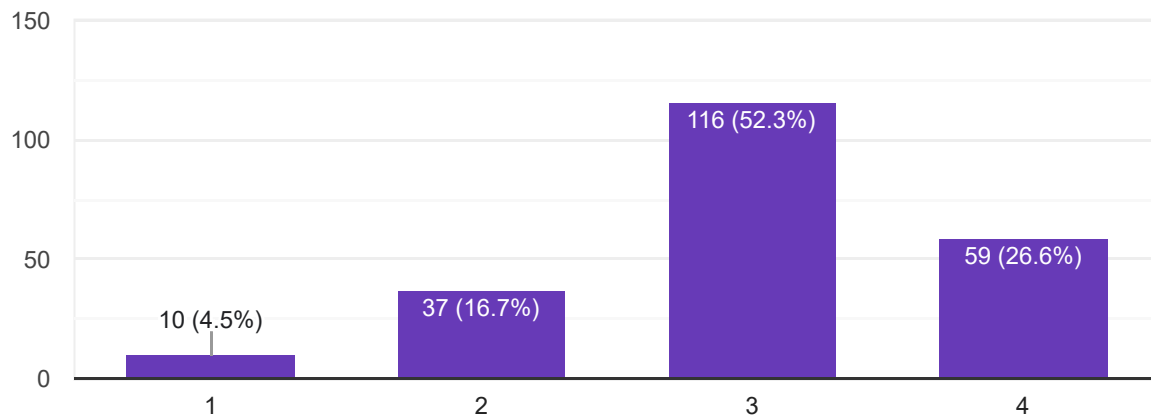

Use cutting-edge technologies for devising cost-effective solutions for the betterment of both industry and society.

222 responses
