WOMEN EMPOWERMENT CELL ACTIVITIES

2019-2020

International Women's Day is celebrated across the world on the 8th of March every year. It celebrates womanhood and pays tribute to the indomitable spirit of women across the globe. To honor womanhood, Women Empowerment Cell had initiated the celebrations on Saturday, 14th March, 2020 in the R.M.D Engineering College campus. On this occasion, competitions like **Vegetable Carving and Talk Show** were conducted.

Entries was open to all girl students from March 12th, 2020 and about 75 students enrolled for both the competitions.

Vegetable Carving

Students exhibit their artistic expression and develop their creativity by giving free expression to their imagination. There were attractive caricatures made out of fruits and vegetables. In the hands of our students, the art of vegetable carving is elevated to new realm of edible creations.

For this exciting event 12 teams comprising 36 students participated in the competition and Mr. Shantha Kumar and Mrs. Maria Swapna Antony were the judges for the competition and they obly judged the creativity of the students.

Talk show:

The Talk Show on '*INDIAN WOMEN IN SCIENCE – COMPETING OR DECLINING?*' is an open oratorical event that brought forth the exclusive speaking skills of students and their perspectives with respect to the important issues in the society. The purpose of the talk show is to either address or bring awareness to conflicts, to provide information, or to entertain. 40 participants participated in the event and at the end, prize winners were announced and appreciated.
