

R.M.D. ENGINEERING COLLEGE YOUTH RED CROSS (YRC)

Distribution of Seed Sheets - 14.08.2019

Trees are an important part of every community. Our streets, parks, playgrounds and backyards are lined with trees that create a peaceful, aesthetically pleasing environment. Trees increase our quality of life by bringing natural elements and wildlife habitats into urban settings. Trees contribute to their environment by providing oxygen, improving air quality, climate amelioration, conserving water, preserving soil, and supporting wildlife. During the process of photosynthesis, trees take in carbon dioxide and produce the oxygen we breathe.

In order to encourage the tree plantation activity our YRC Unit, NSS Unit and ECO Club of RMDEC jointly organized a program to give **Seed Sheets** to 494 first year students during the First year Inauguration day on 14th August 2019. Shri. R.M. Kishore, Vice Chairman, Dr. N. Anbuezhian, Principal, Dr. K. Sivaram, Dean-Research, Dr. K. K. Thyagarajan, Dean-Academic, Dr. M. Maria SusaiManuel, Head-S&H, and Mr. P.Kamalarajan, YRC Programme Officer distributed the seed sheets to the students.
