REPORT ON INNOVATION AND ENTREPRENEURSHIP OUTREACH PROGRAM IN SCHOOLS

Title: Clean Water and Sanitation

Date: 29.08.2023

The Government Higher Secondary School in Periyapalayam hosted a one-day outreach session on innovation and entrepreneurship on 29th August 2023, organised by the Youth Red Cross (YRC) Unit and Institution Innovation Council (IIC) of RMDEC. The event's purpose was to encourage students' creativity and entrepreneurship while educating them on important issues like clean water and sanitation.

Highlights of the Session:

The Headmaster of the Government Higher Secondary School, Periyapalayam gave a heartfelt welcoming speech to kick off the celebration. Dr. Bennila Thangammal, the IIC Convenor, congratulated everyone and clarified the goals of the outreach initiative. As YRC Programme Officer Dr. P. Kamalarajan took the stage to discuss the importance of clean water and sanitation, the discussion picked up steam.

Dr. P. Kamalarajan thoroughly discussed the significance of water resources and the need for water conservation throughout his presentation. His observations provided a clear knowledge of the advantages that water-saving measures can have for coming generations. Dr. P. Kamalarajan provided a demonstration movie featuring various rainwater collection methods to enhance the educational process.

Worldwide Viewpoint:

The emphasis on the worldwide effects of water scarcity—best illustrated by the idea of "zero day" in African nations—was a crucial component of the discussion. Speaking extensively about the effects of "zero day", Dr. P. Kamalarajan gave the pupils a sophisticated perspective of the difficulties that other communities endure. This global perspective aimed to increase students' understanding and provide them with a sense of accountability for water conservation.

Startling Realisations:

The students evaluated the session as having an "eye-opening" overall impact. The emphasis on two essential elements of life—clean water and sanitation—to create in young people the habit of not wasting even a single drop of water. The initiative hopes to support students' overall growth by implementing these sustainable practices.

Summary:

To sum up, the one-day outreach session on innovation and entrepreneurship was a worthwhile endeavor. Students gained an understanding of sustainable practices, clean water, and sanitation through educational seminars and hands-on demonstrations. This event is an excellent start towards developing socially and environmentally conscientious adults by encouraging young people to be innovative and entrepreneurial.

Smt. SOWMYA KISHORE Trustee	Dr.M.S.PALANICHAMY Advisor	Dr.N.ANBUCHEZHIAN Principal	Dr.K.K.THYAGHARAJAN Dean-Research	Dr.C.BENNILA THANGAMMAL IIC Co-ordinator	

On 29th August 2023, RMDEC's YRC Unit and Institution Innovation Council (IIC) collaborated to host an Innovation and Entrepreneurship outreach program at Government Higher Secondary School, Periyapalayam.

During his informative session, Dr. P. Kamalarajan educated the audience on the crucial role of Clean Water and Sanitation.

In an interactive session, students who demonstrated exceptional skills were recognized and awarded prizes for their achievements.

The session was a valuable learning experience for approximately 40 students who understood the significance of clean water and sanitation - two crucial components in every individual's life.
